Re: Leone Huerfano Gravel Pit, Permit No. M-2010-004, Technical Revision Approval, Revision No. TR-01

Dear Mr. Leone Jr.:

On July 9, 2020 the Division of Reclamation, Mining and Safety approved the Technical Revision application submitted to the Division on July 8, 2020, addressing the following:

Increase the approved depth of mining to be between 30 to 40 feet with anticipated highwall length of 300 to 400 feet.

The terms of the Technical Revision No. 01 (TR-01) approved by the Division are hereby incorporated into Permit No. M-2010-004. All other conditions and requirements of Permit No. M-2010-004 remain in full force and effect.

As part of the approval process for TR-01 the Division evaluated the financial warranty and determined the current bond amount, \$61,000.00, held by the Division is adequate at this time.

If you have any questions, please contact me.

Sincerely,

Patrick Lennberg
Environmental Protection Specialist
