Re: King Coal (Permit 1981 – 035)

Dear Ms. Binns:

I have received your June 30 letter about PR-10.

I am believing that this designation is an indication that the Division has determined to process this application as a Permit Revision.

As I am sure that you know, the Division erred recently in treating an application at King Coal as a Technical Revision rather than a Permit Revision. This was a significant error.

I ask this of you:

- If I am wrong and this application is not being treated as a Permit Revision, please advise me without delay.
- Can you please tell me how to access the permit application and related materials on line?

My best wishes to you and your colleagues at the Division.

Sincerely,

Luke J. Danielson
