Subject: New Horizon Mine, Second hydrology review for TR-99

Date: July 13, 2020

I reviewed the response by Tri-State (dated July 9, 2020) to our adequacy letter for TR-99. They addressed all of my issues and questions related to hydrologic modeling. I have no further comments.

I will let you review their adequacy response in terms of pages and page numbers.

Let me know if you have any questions.
