As a 87 year resident of Canon City, Co., I support Zephyr Minerals proceeding in drilling a test in the Green Mountains. It has been my experience that mining was a large part of our history in Fremont County. Dawson Ranch properties sits over coal mining shafts for CFI Coal Mining No. 5. That area also had Empire Zinc complex in the past. I am a stockholder of Zephyr Minerals and have met the officers of that corporation. I am presently President of a Corporation that hires 300 employees and serves over 300 senior citizens in this area. Phillip "Bud" Corey.
