

Imagery Date: 09/12/2018

All disturbed areas have been graded and topsoiled above the water table.

Seeding of disturbed areas was completed November 2017 and reseeded April 2018.

Approximately half to $\frac{3}{4}$ of the seeded area was re-disturbed by the property owner in May 2018 with his farm equipment. Martin Marietta received a phone call after the disturbance.

All of the property was reseeded again and mulched in Oct 2018 and inter-seeded again in April 2019.

Property owner has blocked access to the property for additional seeding or weed control since 4/21/2020.
