Interoffice Memorandum

July 31, 2020

From: Leigh Simmons  
To: File

**Subject: West Elk Mine (Permit No. C-1980-007)**  
**Mid-term Review No. 8 (MT-8)**

The review of Permit Renewal No. 7 (RN-7) extended past the due date of MT-8. All the requirements of MT-8, including a revised site-wide Reclamation Cost Estimate, were satisfied during the RN-7 review.

This memo substitutes for the complete MT-8 findings document and directs the reader to the RN-7 findings instead.
