

Taft Expansion 2020 Supplemental Information

4. Mining and reclamation has been completed for the site except for 2.0 acres along the south boundary which is being used to run conveyor to and from M-1977-439.
17. This permit is no longer covered under a Martin Marietta Substitute Water Supply Plan. The property has been sold to Bill Seaworth and he has taken it through water court (2016CW3093) and is responsible for releasing and reporting to the State Engineer's Office. Copy of decree was attached to the 2019 annual report.
21. Mining is complete, dewatering pumps have been removed, water has been allowed to fill back in, and annual groundwater monitoring has ceased.
