Amy,

I hope you and your family are doing fine in these times. We are healthy here. I tried to get three different quarry operators to come and quarry here without success. I was about to give up with I got a call from John Holiday the same day you sent me your email asking if we could meet over the weekend and talk about him coming back to operate the quarry. We met yesterday and I told him that we had to get the security situation solved for the quarry before I would fully agree to a contract with him. I said I would reach out to several surety companies today, which I have done. I hope to have the surety solved by Friday (8/7) but I am not sure that will be accomplished, because nothing seems to happen on a time schedule these days like it used to be able to occur.

I would like to respectfully ask for one last 30-day extension. I am going to be working diligently throughout the rest of the week to get the additional funding, but .I am just not sure I will be able to get it done.

I will call you tomorrow also.

Thanks for all the help on timing that you have given us and just one more assistance will be helpful and might allow us to continue to quarry and generate useful products and employment for the community and state.

Sincerely,
Wayne
