Memo to the File

RE: 23 ¼ West Pit, File No. M-2020-035 , Revised Application Package

On June 20, 2020 the Division of Reclamation, Mining and Safety (Division) was notified by Ben Langenfeld of Greg Lewicki and Associates that the 112c application he submitted on behalf of Elam Construction would require a revision. At that time the Division had not yet received this application at the Divisions Denver office nor had staff spent any time in review or processing of this application. The Application was received by the Divisions Denver office on July 24, 2020 and was not processed.

Mr. Langenfeld notified the Division on August 10, 2020 that the corrected application package was being mailed to Denver. On August 12, 2020 the Division received the corrected application package. The corrected application package has been scanned into laserfiche. The permit system dates will reflect the corrected application package that will be processed.
