**Re: Bowie No. 1 Mine, Permit C-1981-038,  
Review of 2018 Annual Hydrology Report (Final Review)**

Dear Mr. Bear:

The Division received another BRL response to the Division's review of the 2018 AHR for the Bowie No. 1 Mine (submitted with cover letter by Tamme Bishop dated August 26, 2020). Tamme clarified the extremely high concentrations for total iron and total manganese as errors (units were not converted).

I have no further questions or comments related to this AHR.

Thank you,
