**Re: Daniels Sand Pit 2, Permit No. M-1973-007-SG;  
Technical Revision (TR-09) Approval**

Dear Mr. Allen:

On September 4, 2020 the Division of Reclamation, Mining and Safety approved the Technical Revision application submitted to the Division on November 7, 2019, addressing the following:

*Slope stability geotechnical analyses and additional engineering evaluation for adjacent roads.*

The terms of the Technical Revision No. 9 approved by the Division are hereby incorporated into Permit No. M-1973-007-SG. All other conditions and requirements of Permit No. M-1973-007-SG remain in full force and effect.

The Division has reviewed the change associated with TR-08 for impacts to the financial warranty and has determined that this change does not require an increase to the current reclamation liability.
