RE: Adequacy Review No. 2; Technical Revision (TR-09); M & G Pit, Permit No. M-1986-079

Dear Mr. Blackford,

On August 18, 2020, the Division of Reclamation, Mining and Safety (Division) received a request for Technical Revision (TR-09) to update the Reclamation Plan Map to reflect existing conditions at the M & G Pit, Permit No. M-1986-079. On September 8, 2020 the Division received your responses to the Preliminary Adequacy Review dated August 31, 2020. Please be advised that on September 17, 2020, the application for TR-09 may be deemed inadequate and denied unless the following adequacy items are addressed to the Division's satisfaction. Please respond to the adequacy items with an updated map.

1. Please clearly show the entire permit boundary and the total acreage associated with the permit area, specifically the eastern most corner has been cut-off from the view. Note all maps must meet the minimum requirements of Rules 6.2.1(2), 6.4.3, 6.4.4, and 6.4.6.

This concludes the Division's adequacy review no. 2 of your application. The Division reserves the right to further supplement this document with additional adequacy items and/or details as necessary.

The decision date for your application is set for September 17, 2020. However, please allow the Division sufficient time to complete its review by submitting your response no later than three (3) working days prior to the decision date. If additional time is needed to respond, an extension request must be received by our Office by the decision date. If on the decision date, outstanding adequacy items remain, and no extension request has been received, your revision may be denied and the file terminated.

If you need additional information or have any questions, please contact me at Division of Reclamation, Mining and Safety, 1313 Sherman Street, Room 215, Denver, CO 80203, by telephone at **303-866-3567 x8114**, or by email at patrick.lennberg@state.co.us.

Sincerely,

Patrick Lennberg
Environmental Protection Specialist

M & G Pit, M1986-079
