**RE: Clear Spring Ranch Pit, Permit No. M-1992-074;
October 2019 Inspection Corrective Action Resolved**

Dear Ms. Burdett,

On September 8, 2020, the Division received your emailed documentation demonstrating approximately 19,000 cubic yards of topsoil have been transported to the site, thereby addressing the cited problem in the inspection report dated November 4, 2019.

The Division considers the corrective action resolved.

If you have any questions or need further information, please contact me at (303)328-5229.

Sincerely,

Timothy A. Cazier, P.E.
Environmental Protection Specialist
