Hello,

As a long time resident of Summit County, I would like to voice my opposition to the proposed gravel pit on highway 9 north of Silverthorne:

- We don't need the gravel
- The additional truck traffic is hazardous to our health. It will tear up our roads, snarl our traffic, be dangerous to bikers and destroy the tranquility of the Lower Blue River Basin.
- Mining operations likely would contaminate the Blue River harming an already fragile ecosystem and intrude, deplete and contaminate local well water.

Thanks for your attention to this important issue
