Mr. Fonte,

The Division, after further clarifications, is satisfied with Castle Rock's emergency repairs to the sed pond. Please note that the free board within the sed pond, as observed in the photo, must be maintained for the duration of the project. Under no circumstances is Castle Rock permitted to discharge any sediment laden waters outside the permitted area. If that occurs, it will be a separate enforcement issue. DRMS will contact Castle Rock regarding any enforcement issues quickly.

Regards,

Russ Means
