Hello Mr. Fowler,

DRMS has received your email and will look into this issue. Can you provide me with a specific location of the property you are concerned about?

Thank you,

Jared

Subject: Gem mine Idaho Springs
To: dnr_dmg_web@state.co.us <dnr_dmg_web@state.co.us>

It has come to my attention that three projects are being pursued by the city of Idaho Springs, Mary Jane Lovey, and John Miner. As for the first project concerning The three is the use of tailings pile on the Gem Mine being used for either fill material or a storage lot for heavy equipment and parking. Usage of this type will disturb the tailing and release toxic materials into storm water runoff contaminating clear creek. The proposed construction on property owned by the city of Idaho springs, and Mary Jane will result in storm water runoff flowing over contaminated dumps resulting in the same affects on clear creek.
