Jared- It has been brought to my attention that the Gem Mine and staging area- if that is the area of concern at this point in time, is located in Clear Creek County. Ken is the contact person. IF there are concerns done the road about the parking deck, then that project is in the City. The gondola is within the City once the annexation of the upper landing becomes final. IF you wish to speak to the developer, Bryan is the person that can answer construction related items.

Subject: County

Barb I've copied Ken here, please share his email with whomever you are speaking with at Mines.

Thanks for your help!
