RE: Application by Peak Ranch Resource (File No. M2020041)

To whom it may concern,

I am writing to seek Party status to testify about the above-mentioned application by Peak Materials to establish a gravel mining operation at the site designated as Peak Ranch Resource. I am specifically aggrieved by this proposed project for the following reasons:

Increased noise, traffic, speeding trucks, spraying rocks on road, damage to personal vehicles (windshields AND headlights/taillight!!), and damage to our personal household wells. I also have had numerous near misses at Silverthorne Elementary School stop light with trucks completely disregarding their red light. It is only a matter of time before a horrific accident occurs at this location.

I wish to be heard at the public hearing of the Colorado Mined Land Reclamation Board when the Board takes up this application. Please add me to your email distribution list notifying interested parties of the date, time, location and format for this meeting.

Sincerely,

Susan Rose
