## **Minor Revision MR-226. No Name West Diversion and I Pit Preparation**

Dear Ms. Reilley:

Enclosed is a copy of a Minor Revision (MR-226) to initiate the topsoil stripping and construction of the No Name West Diversion ditch on the northern edge of the proposed topsoil stripping areas in I Middle Pit. Another small area of topsoil stripping is proposed with this revision to begin preparation of the temporary spoil dump area access south of the BC haulroad.

The total proposed stripping area is 5.2 acres, 2.1 acres of this area is considered re-disturbance PH III bond released lands, therefore only 3.1 acres of new disturbance will be requested with this MR. The attached figure shows the proposed stripping. All stripping areas are included in the PR-10 submittal currently approved awaiting final approval after the public comment period. All associated bonding has also been calculated and included in the PR-10 bond estimate.

Materials necessary for this MR have been included and attached as listed below:  
App Q, Sect. XVII; No Name West Diversion Ditch SedCad model  
Map M51, Sheet 1

Please get back to us with any questions, comments or concerns.

Sincerely,

Graham Roberts  
Environmental Supervisor  
Trapper Mining Inc.
