RE: Sokol Pit, Permit M-1980-0193;
October 2016 Inspection Corrective Action Resolved

Dear Mr. Bieber,

A file review indicated a receipt had not been sent for the corrective action documentation cited from our October 2016 inspection. On January 29, 2018, the Division received your notarized letter in accordance with Rule 6.4.19 addressing the potential for damage to the transmission powerline, thereby addressing the cited problem in the October 2016 inspection report.

The Division considers the corrective action resolved.

If you have any questions or need further information, please contact me on my cell phone at (303)328-5229.

Sincerely,

Timothy A. Cazier, P.E.
Environmental Protection Specialist
