Subject: Re: question on how to amend submitted report

Hi Paula,

I don't think there is a way for you to correct the report you submitted. But, I will scan this email and map into our document system and label it as the updated report. This will be considered the correction.

Thank you for your attention to this matter, I appreciate it,

Brock

Good Afternoon:

I submitted an annual report & annual fee for Kues Gravel Pit, permit #M1983187 this morning. I need to correct that report & the map I attached. This pit was expanded in 2010 & the total acres are 80.56 (50.46 original pit + 30.19 for expansion). I incorrectly put 50.5 acres in report & also submitted the old map with only 50.5 acres. Attached is the correct map that should have been attached to report.

I tried to find an option on the website to correct but was unsuccessful. Could you please assist in this matter?

Regards,
