**Re: Climax Molybdenum Company; Henderson Mine; File No. M-1977-342;
Technical Revision No. 30 (TR-30); 1-Dam Seep Water Collection and Return System
Improvements; As-Built Drawings and Engineering Certification Adequacy Review**

Mr. Hilshorst,

The Division of Reclamation, Mining and Safety (Division/DRMS) reviewed the content of as-built drawings and engineering certification for the 1-Dam Seep Water Collection and Return System Improvements, Technical Revision No. 30 (TR-30), received on November 11, 2020 and submits the following comments.

1. Only the first page of the as-built drawings dated December 2019 was stamped, signed and dated by a Professional Engineer. Please provide copies of all as-built drawings with the required professional engineer stamp, signature and date for Technical Revision No. 30.

If you have any questions, please contact me at peter.hays@state.co.us or (303) 866-3567 Ext. 8124.

Sincerely,

Peter S. Hays
Environmental Protection Specialist
