Mr. Bleak:

On November 2, 2020 the Division of Reclamation, Mining and Safety (Division) received your application for Transfer of Mineral Permit and Succession of Operators (SO-02). At this time the application is considered incomplete. Before the application can be processed the following item(s) must be received by the Division:

1. Financial Warranty - The Prospective Successor must provide Financial Warranties sufficient to cover the cost of completing reclamation in compliance with the Permit, the applicable Act and Rules.

The required financial warranty amount for this site is \$35,167.30. Please provide financial warranty to the Division in this amount.

2. Demonstration of Legal Right to Enter – All permittees must provide a description of the basis for legal right of entry to the site and to conduct mining and reclamation.

The *Uranium Mining Lease Assignment* included with the SO-02 submittal does not include the Mineral Joe Claims. Please provide your source for legal right of entry for the Mineral Joe Claims permit area.

Please submit the above listed items within sixty days. An incomplete application may be terminated by the Division after sixty days if requested documents or information are not received.
