Langston Borrow Pit – 112c Permit Application Extension Request Permit # M-20-20-023.

We would like to request a thirty-day extension on the decision date for 112c Construction Materials Reclamation Permit Application. The original decision date is December, 10, 2020.

Thank you in advance for your consideration. We regret to have to make this request, but the complications surrounding this years COVID 19 related problems have made everything much more challenging. Nearly anything we have attempted to accomplish outside our control has taken nearly twice as long as it would have under normal circumstances. We look forward to getting everything turned in as soon as we can and will continue our efforts with steadfast enthusiasm.

Thank you,

Zac Langston
