1313 Sherman Street, Room 215  
Denver, CO 80203

Re: 112c Annual Report and Map – Debetz Pit, Permit # M-1977-283

Dear DRMS:

The Debetz Pit was mined for several years by the Adams County Public Works Department as a source of road base. The County ceased mining operations in 2001 and have been worked to clean fill a portion of the lake to minimize augmentation requirements.

Site reclamation activities have continued through 2020 including ongoing site vegetation establishment and overall stabilization of over 400 liner feet of embankment on the western shore that and over 100 liner feet of embankment on the southern shore.

The armoring and slope work in these areas ultimately exceeded the requirements the DRMS corrective action directive. We will continue to work on establishing desirable vegetation in these areas while working to control undesirable vegetation.

Sincerely,

Kurt Carlson  
Operations Manager Parks Trails and Open Space

Enclosure: 112c - Annual Report Map Permit # M-1977-283

Cc: J. Byron Fanning Jr., Director

# Adams County Debetz Pit

## 2020 112c Report Map
