Rail loop shown in 2 photos below, which is proposed to be left to recreational use under PR-2.

**Current Permitting Actions:**

**PR-2 decision date 1/28**

**SL-2:**

The Division application for SL-2 for the Hayden Gulch Loadout on October 22<sup>nd</sup>, 2020. SL-2 was deemed complete on October 28, 2020. The Division conducted the SL-2 bond release inspection on November 10<sup>th</sup>, 2020. SL-2 was submitted to the Division in conjunction with Permit Revision No. 2 (PR-2). PR-2 proposes to modify the approved reclamation plan and post-mining land use for the major portion of the Hayden Gulch Loadout, consistent with the transfer of former rail spur areas to the Town of Hayden (Hayden) for recreational use. The former rail spur area will be converted to a recreational trail for the use of residents and visitors to Hayden under a locally managed “Tracks-to-Trails” program. The Division provided adequacy comments for PR-2 to the operator on November 25<sup>th</sup>, 2020. **Permit Revision No. 2 (PR-2) must be Issued by the Division before a proposed decision will be made by Division for Bond Release SL-2.**

**ENFORCEMENT ACTIONS/COMPLIANCE**

No enforcement actions were initiated as a result of this inspection, nor are any pending.
