Denver, CO 80237

December 11, 2020

Dear Mr. Wagner:

I am writing to remind RMR Aggregates, Inc., and Rocky Mountain Industrials (collectively "RMI") that any operations at the Mid-Continent Quarry must comply with applicable laws and regulations, including the seasonal restriction on certain operations—a restriction that was established by Garfield County as a condition of RMI's operating permit.

As you know, the County resolutions and the permit under which RMI operates the Mid-Continent Quarry authorize only certain operations in the winter. From December 15 to April 15, RMI is authorized to engage in certain truck hauling operations, but cannot engage in other mining and processing activity, including blasting or excavation. These restrictions are intended to reduce environmental disturbances and protect wildlife, including elk and other wild game.

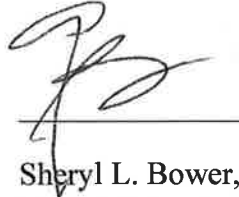

This seasonal restriction was established by resolution of the Board of County Commissioners for Garfield County, and RMI's special use permit is conditioned upon RMI's compliance with the seasonal restriction. While RMI may separately be subject to restrictions from the BLM, the seasonal restriction established by the resolutions and permit of Garfield County may only be modified by Garfield County.

RMI has not made any request to Garfield County for an exception to the seasonal restriction. Unless RMI requests and receives an exception to the seasonal restriction from the County, RMI remains obligated to comply with the restriction.

108 Eighth Street, Suite 401
Glenwood Springs, Colorado 81601
(970) 945-8212

Please do not hesitate to contact us if you have any questions.

Sincerely,

A handwritten signature in dark ink, appearing to be 'Sheryl L. Bower', written over a horizontal line.
