RE: Lyons Quarry, Permit No. M-1977-141, Technical Revision Approval, Revision No. TR-04

Mr. Deuto:

On December 15, 2020, the Division of Reclamation, Mining and Safety (Division) approved the Technical Revision application (TR-04) submitted to our office on October 16, 2020, addressing the following:

Update reclamation plan, reclamation plan map, and bond estimate to address Reclamation Area 2.

The terms of TR-04 approved by the Division are hereby incorporated into Permit No. M-1977-141. All other conditions and requirements of Permit No. M-1977-141 remain in full force and effect.

In its review of TR-04, the Division determined the required financial warranty for the site to be in the amount of \$9,887,461.00, which is \$540,577.00 more than the currently held amount of \$9,346,884.00 (bond estimate was enclosed with the Division's Adequacy Review No. 2 letter, dated December 14, 2020). A notice of surety increase will be mailed to you separately from this letter for the amount above. You will have 60 days from the date of the notice to post the additional required financial warranty.
