To: - Russell <elliott.russell@state.co.us>

Russell-as we have discussed-I am requesting the Board to grant a final 60 day extension to comply with Corrective Action #2

This is necessary as the issues raised in Corrective Action #1-TR01 have not been fully resolved. The way these issues are resolved will be critical to finalizing an amendment detailing proposed mining and milling activities at the site

thank you
