Re: Rivera's Excavation Gravel Pit Annual Report

In the past year of 2020 mining was continued. Approximately 2 tons of material was mined. Due to covid-19 this year not much was used due to lack of work.

No portion of this area was ready for reclamation.

Anticipation to occur this coming year of 2021 is to keep mining south from disturbed area.

Not enough material was removed on the east slope to start reclamation.
