SUBJECT: Planning Review: Re. No Impact Technical Revision (Appendix A - 8.B) of Cripple Creek and Victor Gold Mining (CCV) Permit No. M-1980-244; Mine Development Plan (MDP); Technical Revision TR #124– Carlton Tunnel Boundary Adjustment

Dear Mr. Raglin and Ms. Dehlin:

The Teller County Planning Department has completed its review of the Newmont Mining Corporation's (CC&V) Technical Revision TR # 124 – Carlton Tunnel Boundary Adjustment.

1. Teller County understands that the Division of Reclamation, Mining and Safety (DRMS) has required this TR in order to adjust the configuration of the existing affected lands permit boundary (inside the CCMOD) for in the Carlton Tunnel area. Specially, this TR will document, with actual coordinates included in Attachment 1 and 2 of your October 1, 2020 letter to Teller County, the Carlton Tunnel Area.
2. This is a clerical correction involving a more accurate boundary area for the Carlton Tunnel Area that lies within the DRMS approved permit area and inside the Teller County CCMOD. There is no change in use or expansion being proposed as part of this adjustment.
3. It is further understood that TR# 124 proposes no increase in the affected acreage of the Mined Land Reclamation Permit or disturbance. There is no material change in mining use and no additional impacts to Teller County services or infrastructure nor to adjacent or adjoining property owners. All of the standards outlined in Section 7 Mining Development Plan Standards are met and all of the current terms and conditions of the current MDP and all amendments will remain unchanged as a result of TR #124
4. Teller County concurs with TR # 124 as written. If you have any questions, please contact me at (719) 686-5406 or email MorganL@co.teller.co.us.

Respectfully,

Lynda Morgan
CDSD Director
