RE: Aggregate Industries-WCR, Inc. Lyons Quarry (M1977-141) Annual Report

Dear Ms. Eschberger,

Enclosed is Aggregate Industries – WCR Inc. (Aggregate) annual report form for the above-referenced permit.

During 2020, the planned reclamation for the site was postponed 1 year due to complications from the COVID pandemic. Reclamation of the site will commence around March of 2020, pending no further COVID implications. Additionally, in 2020 Aggregate began revising the reclamation plan to more align with Boulder County Parks and Recreations vision for post mining use of the site. Technical Revision (TR) 05 will be submitted in early 2021 and will include plans for both the highwall and floodplain reclamation.

Site-wide weed control was performed in September 2020.

No fill was placed onsite in 2020.

The Lyons Quarry site was significantly impacted by the September 2013 flood event that occurred on South St. Vrain Creek and the site access road and bridge were washed out. Due to lack of access, there was limited activity since the 2013 flood event.

The Site Grading Plan that was approved with TR-02 is enclosed as the annual report map and as no reclamation occurred in 2020, has not been updated since the 2019 annual report.

Sincerely,

A handwritten signature in blue ink, appearing to read "Jeremy Deuto", written over a horizontal line.

Jeremy Deuto, P.E., P.G.
Regional Land and Environment Manager
