Re: New Elk Mine  
Permit C-1981-012  
MR-126

Dear Mr. Cunningham:

Please find electronically attached an application for MR-126 for the New Elk Mine. MR-126 revises the location of one drill hole that was added to the permit as part of TR-75. The drill hole is being moved for ease of access.

An application, an updated Map 11- Sheet 4, and updated Section 2.02 pages 1 through 3 are attached. Table 1.2 has also been updated to reflect the correct information as the sum of the totals was off as part of TR-75. A Cultural Resource Survey has been completed and is also attached.

The bond for TR-75 should be received as of January 22, 2021.

We appreciate your efforts to review this information promptly. Please call me if you have any questions or comments.

Sincerely,

The signature is written in a cursive, handwritten style. The first name 'Nicholas' is clearly legible, and the last name 'Mason' is also legible, though slightly more stylized.

Nicholas Mason
