Patrick,

Here are the noise test results from the operator at the Signal reservoir site.

Can you put me in contact with the person at Adams County that you referred the complaint to? I want to get this resolved as soon as possible.

Thanks,

Don

Don,

Here are the results of our sound survey from yesterday with our operation fully running:

Noise measurement data:

- 25 ft from the frac heater toward the complaint 85 dBC
- At the boundary of the neighborhood 60 - 65 dBC

I am confident the complaint was not caused by our water operations.

Thanks,

Erik
