Good morning.

Please see attached file. I think that the ARR review should be relatively simple this year.

Thanks,  
Rob

**Re: Bowie No. 1 Mine, Permit C-1981-38,  
Initial Review of the 2020 ARR**

Dear Mr. Bear:

On January 28, 2021, the Division received BRL's 2020 Annual Reclamation Report (ARR). I have the following issues regarding this report:

1. The date in the footer of the form is incorrect.
2. There are inconsistencies between the descriptions of reclamation by year and the summary table on page 31:
  - a. The 2009 data has several inconsistencies.
  - b. For 2008 data, Zone 1-C from the summary table is not shown in the description for this year, and there appears to be a discrepancy with Zone 2-B.

Please address these issues, and then I can give you my feedback on the ARR form itself. (I think that will be a relatively simple task after the work Tamme Bishop did on this last year.) As always, call or e-mail me with any questions related to this review, and/or submit a formal response via the Division's ePermitting system.

Thank you,
