Hello Mr. Bowles,

We have sort of been trying to discuss the material extraction over on CR 79 in between all the craziness happening around here.

We have determined we are not willing to give up that much ground on the sloping the sidewalls in option. We are going to stick with how the permit is drafted with backfill the highwalls in with the overburden/topsoil stockpiles.

Let me know what I need to do.

Thank you,

*Zac Langston*

Zac,

This letter works. Thanks

The last item that needs to be resolved is how you want the highwall to be bonded. Either as cut/fill or backfilled. Let me know at your earliest convenience and I will finish my cost estimate and get you a copy to review.

I'm sorry to hear about the robbery. I hope it is not as frustrating as the last incident you told me about.

Hello Mr. Bowles,

Sorry for the late reply. But thank you for the e-mail and the note from Mr. Cazier.

We were robbed last night, so my head is not fully in the game today. We were broken into at our office and are missing a few important things. So, we have had the privilege of dealing with the police all day, filling out reports, making statements, and attempting to fortify our perimeter more so than we did the last time we were robbed.

We have had the last few minutes to discuss Mr. Cazier's idea and have weighed the options. We determined we like the idea and have attached a letter with your instructions. Please let us know if the letter will suffice.

Thank you,

*Zac Langston*

Zac,

I was just talking to Tim. He suggested another option for the structure agreement with the Provenzano residence. He suggested that you can make a commitment to 'not mine within 200 feet of their residence' until you have obtained a structure agreement with them. Since you will not be mining that side of the mine for several years, we can approve the permit and you will have the next several years to get that structure agreement.

If you want to do this option, please request this commitment to not mine within 200 feet of the Provenzano residence in a signed letter on Langston letterhead and PDF it to me.
