February 23, 2021

Mr. Dillon Snare  
Snare Construction, Inc. & Materials Pit  
13619 CR 1  
Florissant, CO 80816

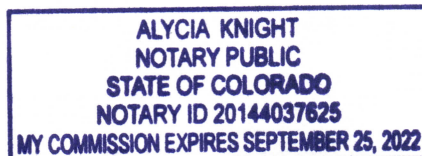

Dear Mr. Dillon Snare:

It was a pleasure to discuss your gravel pit project in Section 25, T13S R71W as shown on the attached plan. As we discussed, the mining and reclamation plans are not intended to encroach within 40 feet of the existing Association 12.47kV distribution line. As such, it is not expected that your operation will have any adverse effect on our facilities. However, Snare Construction, Inc. & Materials Pit has agreed to be responsible for any costs associated with damage that may arise due to mining and reclamation activities on the site.

If you have any questions or concerns, please let me know.

Sincerely,

Intermountain Rural Electric Association  
Mark Jurgemeyer  
Engineering Director

My Commission Expires 9/25/2022

To: "Russell - DNR, Elliott" <elliott.russell@state.co.us>

In response to #13 of the Adequacy Review proof of submittal of public review copy with the Teller County Clerk IS attached.

In response to #14 of the Adequacy Review the agreement with the IREA IS attached. (They sent me back the maps I sent them to look over and I do not know how to separate them from the letter)
