**Re: Receipt of Corrective Action Documentation
Van Egmond Stone Pit, Permit No. M-1991-080**

Dear Russell Van Egmond:

On September 22, September 28, and November 13, 2020, the Division of Reclamation, Mining and Safety (Division/DRMS) received your corrective action documentation regarding the Compliance Problems identified in the July 2, 2020 report for the June 2, 2020 inspection of the Van Egmond Stone Pit. The corrective action documentation shows a new permit sign has been posted in accordance with Rule 3.1.12(1), fuel/oil contaminated soils have been excavated and stored in-doors for disposal at a later time, and fuel located on-site is now stored within a secondary containment structure. Given this, all of the cited Compliance Problems have been resolved.

If you need additional information or have any questions, please contact me at Division of Reclamation, Mining and Safety, 1313 Sherman Street, Room 215, Denver, CO 80203, by telephone at **303-866-3567 x8132**, or by email at elliott.russell@state.co.us.

Sincerely,

Elliott R. Russell
Environmental Protection Specialist
