Re: Huddleson Stock Pond, Permit M-2019-009, Surety Reduction Requests

Dear Mr. Huddleson,

During our telephone conversation yesterday, you asked about the procedure to reduce the bond on your permit based on the reclamation you have completed. I have attached a partially completed Surety Reduction Request Form and a draft reclamation cost estimate, both for your use. When you request the surety reduction, it must be sent via certified mail and include a new reclamation cost estimate.

Please complete page 2 of the attached request form, including a certified mail # (on the third line) and the name address and phone number for the land owner (I assume that is you, but it would be best if you completed that portion). I have also attached a draft reclamation cost estimate. If you agree with it, please initial and date the first page and return it with the request form. If you would rather generate your own cost estimate, please include that with the form when you return it.

If you have any questions, please contact me at (303) 328-5229 [cell].

Sincerely,

Timothy A. Cazier, P.E.
Environmental Protection Specialist
