**RE: Nahcolite Project, File No. M-1983-194 , 15H-IR-E Plug Back**

Dear Mr. Daehling:

On March 3, 2021 the Division of Reclamation, Mining and Safety (Division) received a response to the Division's March 2, 2021 letter from Jerry Daub on your behalf. The Division acknowledges that a change to the production liner does not physically change the well configuration therefore no Technical Revision (TR) will be required. Moving forward the Division requests to be notified separately from BLM for any well modifications. The notification shall include the revised well diagram. Additionally any modifications that change the physical structure of the well shall be done under the TR process.

If you have questions or concerns, please feel free to contact me.

Sincerely,

**Amy Yeldell**  
Environmental Protection Specialist
