RE: Liberty Mine, Permit No. M-2013-070, Inspection Report Problem, Corrective Action Extension Request Approval

Dear Ms. Bonde:

On March 11, 2021 the Division of Reclamation Mining and Safety (Division) received a copy the Noxious Weed Management Plan that was erroneously missing from the original mine plan submission. Given the time of the year, noxious weed treatments are impractical. The Division is approving an extension to complete the corrective actions as required by the October 20, 2020 inspection report. Please submit photo documentation to the Division of noxious weed management treatments no later than June 1, 2021.

If you require additional information, or have questions or concerns, please feel free to contact me

Sincerely,

Amy Yeldell
Environmental Protection Specialist
