Mitch:

Thank you for returning the signed receipt. Below is the contact information for Amy Eschberger – the DRMS Environmental Protection Specialist for the site; cc'd here as well. When contacting the DRMS please reference the Young Ranch Resource Quarry DRMS ID M-2021-009. Thank you, Mitch.

Subject: Re: MLR Permit Notice

Hi Katie,

After some further discussion we decided to sign the document since it is just a recognition that we received the document and doesn't require use to do anything with regard to the permit. It is attached. Also, do you have the contact information for someone at the DRMS? I wanted to follow-up with them about the notice so we can understand their process and what they expect of the Conservation District. This will allow us to complete our portion and not hold up the permitting process for the clients. However the notice you provided from DRMS has only a phone number that really gets you nowhere. Any names, email addresses or direct phone numbers would be greatly appreciated. Thank you.

Mitch:

Thank you for your response. We did see that the mine permit area did not have an assigned conservation district; however, the DRMS had instructed us to send notice to the JCD regardless. I will forward your email to the DRMS so they are aware of the JCD's position. Have a lovely week, Mitch.

Cheers,

Subject: MLR Permit Notice

Hi Katie,

Today the Jefferson Conservation District received notice from you of an application for a Construction Materials Permit with the Colorado Mined Land Reclamation Board for the quarry known as the Young Ranch Resource Quarry. The quarry is in Clear Creek and Gilpin Counties while the Jefferson Conservation District's boundaries only include parts of Jefferson County. Therefore we feel it would be inappropriate for us to comment on the permit application.

Thank you.
