Re: E 8th Street Operation, Permit M-2000-082, Technical Revision Approval, Revision TR02

Mr. Miller:

On March 19, 2021 the Division of Reclamation, Mining and Safety approved the Technical Revision application submitted to the Division on February 16, 2021, addressing the following:

Update Reclamation Plan to show final reclamation configuration/contours and clarify that reclamation will consist of two open-water ponds (because the Ogilvy Ditch was not relocated from its original position). City of Greeley is responsible for submitting permanent augmentation plan for exposed groundwater per lease agreement and SWSP.

The terms of the Technical Revision TR02 approved by the Division are hereby incorporated into Permit M2000-082. All other conditions and requirements of Permit M2000-082 remain in full force and effect.

If you have any questions, please contact me.

Sincerely,

Eric C. Scott
Environmental Protection Specialist
