

#### **2.04.4 - CULTURAL AND HISTORIC RESOURCE INFORMATION**

Complete Archaeological Service Associates (CASA) of Cortez, Colorado has prepared a cultural resource inventory documenting the results of a pedestrian survey of those areas that may be affected by surface disturbance within the permit area (see Appendix 3(2)). Appendix 3(2A) was created by GCC Energy to show the CASA cultural resource inventory survey area with an overlay of the King II surface facilities to better illustrate the survey area boundary. No cultural or historic resources eligible for listing on the National Register of Historic Places or significant archeological sites that may be affected by surface disturbance (including subsidence) were identified in the survey.

SWCA Environmental Consultants of Durango, Colorado performed a cultural resource survey of the 9 core drill sites addressed in Technical Revision TR-22 (see Appendix 3(3)). No cultural or historic resources eligible for listing on the National Register of Historic Places or significant archeological sites that may be affected by surface disturbance were identified in the survey.

Stratified Environmental and Archaeological Services (SEAS) of Durango, Colorado has performed a cultural resource survey of the 5 monitoring well drill sites addressed in Technical Revision TR-26 (see Appendix 3(4)). One newly recorded prehistoric site (5LP 11050) was found. The MW-4 monitoring well site was relocated over 50 feet from the prehistoric site boundary.

Stratified Environmental and Archaeological Services (SEAS) of Durango, Colorado has performed a cultural resource survey of the exploration drill site and access path addressed in Minor Revision MR-49 (see Appendix 3(5)). No cultural or historic resources eligible for listing on the National Register of Historic Places or significant archeological sites that may be affected by surface disturbance were identified in the survey. Cultural resource clearance for the project was recommended as no significant or potentially significant cultural properties will be affected.

#### **TR-30 Old Barn Staging Area**

Stratified Environmental and Archaeological Services (SEAS) of Durango, Colorado has performed a cultural resource survey of the “Barn Staging Area & Access Road” sites addressed in Technical Revision TR-30, Results of this survey are located in King II Appendix 3(8).
