

Permittee Name: Albert Frei & Sons, Inc.
Permit No: M-1977-526
Operation Name: Worthing Pit
Anniversary Date: 03/28/2021

SUPPLEMENTAL INFORMATION (as of 3/17/2021)

In August 2020, DRMS approved a partial release of 8.5± acres reducing the permitted acreage from 160.9± to 152.4± acres. Approval for an additional partial release of 81.45± acres is pending the 30-day comment period started on March 12, 2021. Once the approval is final, the permit area will be reduced to 70.95 acres±.

10. Approximately 10.25 acres, was final graded and seeded in the fall of 2019 and the grass is growing.
11. No new area will be disturbed this year, but reclamation will continue on the Inert Fill area on the north end of the Permit area.
12. We will continue to fill in the Inert Fill area by completing the first lift of fill. Filling may begin on the east side of the Plant Site area. This will bring the area along Brighton Road back to its original elevation.
15. We have approximately 63,000 YD³ of growth medium stored on the site at this time. This is more than enough to cover the remaining areas on site with the 6 inches required by the permit.
