

**Table 9. Logan Wash Mine Retort Water Analytical Data**

---

**Notes:**

U = result not detected at the reporting limit

J = result value greater than the MDL and less than the RL; result considered estimated

B = analyte found in sample and associated blank

HF = analysis holding time exceeded; result considered estimated

E = result estimated due to the presence of interference

R = rejected data

O1 = failed the method required serial dilution test and or subsequent post spike criteria. Failures indicate matrix interference

V = sample concentration is too high to evaluate accurate spike recoveries

--- = Analysis not performed

Yellow highlight: suspect laboratory error
