**Re: Climax Mine, Permit No. M-1977-493, Notification of Work to be Completed on Climax Property by Xcel Energy**

Dear Mr. Czapla:

In January 2021, Xcel Energy approached Climax requesting to complete work within their easement on Climax property. This work would consist of:

- **Attachment 1:** 4-6 pole replacements, dependent on existing pole conditions, near the toe of 1-dam
- **Attachment 2:** 1 pole replacement above 10-Mile Riser
- **Attachment 3:** 1 pole replacement near the Mayflower substation

All minor disturbances from the pole replacement work will be immediately reclaimed upon completion of the project. All new disturbance will be shown on the maps submitted with Climax's annual reclamation report.

If you have any questions or concerns, please contact me at 719-486-7717.

Sincerely,

A handwritten signature in blue ink that reads 'Alex Ungers'.

Alex Ungers  
Sr Environmental Scientist
