**Re: Keenesburg Mine (Permit No. C-1981-028)
Review of 2020 Pest and Disease Inspections (Third and Fourth Quarters)**

Dear Mr. Moline:

The Division received your Third and Fourth Quarter Pest and Disease Inspection Reports (signed by Wayne Erickson of Habitat Management) based on inspections on 29 September and 9 October 2020. I reviewed these reports, and (based on my own observations during my inspections) agree that there are no problems with plant pests or diseases at the Keenesburg Mine, other than the ongoing battle against cheatgrass. Coors Energy's efforts against this weed have been extensive and well documented.

If you have any questions or comments, please do not hesitate to contact me at Rob.Zuber@state.co.us or 720.601.2276.

Sincerely,

Robert D. Zuber, P.E.
Environmental Protection Specialist II
