Dear Mr. Czapla,

On 4/8/21 we received notification from the DRMS that the required annual geotechnical report for the Lily Mines, permit M1987028, is past due. We have contacted our consultant and have scheduled it to be completed once we have access to the minesite. We expect this to be mid-May but is weather dependent. We will forward the report as soon as it has been completed.

Regards,

Eric Leigh
