**Re: Toner Ranch Pit, File No. M-2021-011, Construction Materials Limited Impact (110) Operation
Reclamation Permit Application, Receipt of Public Comment or Objection**

Dear Mr. Barsanti,

On April 15, 2021 the Division of Reclamation, Mining and Safety (Division) received your objection on behalf of RMR Real Estate Limited Partnership LLLP (RMR) to the above listed permit application. Thank you for taking the time to be involved in the public process. April 18, 2021 was the final day for comments to be submitted and your objection was received and considered timely pursuant to Construction Materials Rule 1.7.1(2)(c).

Please note that although your letter does not explicitly state that you object, all comments in opposition must be treated as such. If you wish for your objection to be treated as a general comment rather than an objection you must notify the Division in writing. If no clarification is received the Division will move forward with the objection process and list you as a party accordingly.

All jurisdictional items contained within your objection will be incorporated into the Division's Adequacy Review and your original objection has been forwarded to the Applicant. You will be notified when a response is received. If you have any questions, concerns or need any additional information please contact me at the Division's Grand Junction Field Office, by phone at (303) 866-3567 Ext. 8187 or by email at lucas.west@state.co.us.

Sincerely,

Lucas West
Environmental Protection Specialist
Division of Reclamation, Mining and Safety
